The Michigan Alcoholism Screening Test (MAST) Test is a simple test that helps assess if you have a drinking problem. Your responses to these questions are strictly confidential and will not be submitted without your consent, unless ordered by a court.

The following questions represent many of the areas a professional would be evaluating. To get an accurate screening, it is very important for you to answer each and every question honestly. As you read through these questions, remember that we all may have experienced one or more bad moments or bad days. A short time means a few hours up to a couple of days; not weeks or months.

**Please answer YES or NO to the following questions.**

1. Do you feel you are a normal drinker? ("normal" means drinking as much as or less than most other people)  
 Yes  No
  
2. Have you ever awakened the morning after some drinking the night before and found that you could not remember a part of the evening?
